**Titled Item** (circle: yes or no) If no, will title be available by sale time? (circle: yes or no)

\*\*\*Reminder: McNamee Auction Company will request that titles be presented prior to the sale. However, if a consignment is listed as selling without a title, buyers will purchase "As is, Where is". Any title issues that arise between sellers and buyers will be resolved between the seller and buyer with MAC being "held harmless" in such situations.

**Pictures:** If sellers would like to have pictures of a consigned item included in the advertising, this can be accommodated in a couple of different ways. JPEG file photos off of any digital camera can be emailed and are probably the easiest to format and add to the flier.

Another popular option is the use of the cell phone for pictures as they can be sent through either a text message or an email. If the consignment is local and a consignor would like to have MAC come and photograph the items for sale, we will be glad to do that as well.

**Lien or Encumbrance Information:** Consignors agree to disclose in writing any lien or encumbrance information pertinent to the consigned item(s). McNamee Auction Company reserves the right to conduct their own search of such information if deemed necessary.
